

Filtri per industria, movimento-terra, autotrazione, sollevamento, presse, stampaggio a freddo e caldo, fonderie e pressofusioni, macchine utensili, polveri e liquidi, agricoltura e compressori.

We are skilled in filters for: industrial use, earthwork, freight motor transport, agriculture, machine tools, press, compressor, powder and fluid.

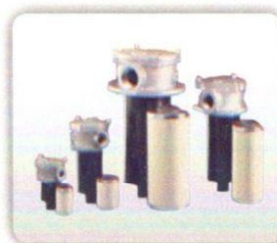

**Filtri avvitabili da montare su serbatoio**  
Tank top return spin-on-filters

**Filtri in aspirazione immersi**  
Suction strainers

**Filtri in linea per medie e alte pressioni**  
In line medium and high pressure filters

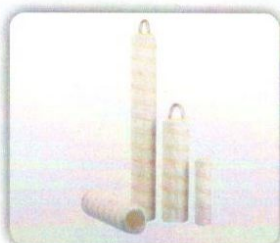

**Filtri sul ritorno**  
Return-line-filters

**Filtri sul ritorno**  
Return-line-filters

**Filtri sul ritorno**  
Return-line-filters

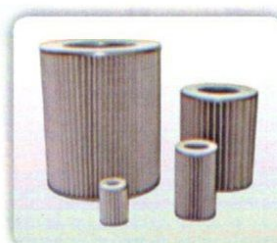

**Cartucce coreless**  
Coreless cartridges

**Cartucce water absorbent**  
Water absorbent filter elements

**Filtro anticalcare**  
Anti-limestone filter elements

**Cartucce filtranti per aria e gas**  
Gas and air filter elements

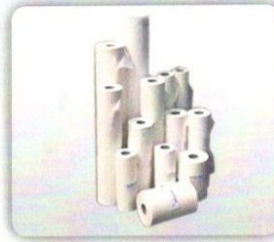

**Filtri in aspirazione e ritorno  
avvitabili nel serbatoio**  
Suction and return tank-filters

**Filtri simplex in linea  
a cartuccia/cestello**  
Inline simplex filters  
cartridge/basket type elements

**Filtri in linea per  
medie e alte pressioni**  
In line medium and high  
pressure filters

**Tessuti filtranti**  
Compressor-filters

**Filtri aria-olio-gasolio**  
Air-oil-gasoline filters

**Filtrazione aria e polveri**  
Sacche filtranti normali  
e antistatiche

**Filtrazione aria e polveri**  
Cartucce filtranti normali  
e antistatiche

**Elettroerosione**  
Spark erosion  
Filtri ed elementi filtranti per microfiltra-  
zione di fluidi e lubrorefrigeranti. Idonee per  
macchine elettroerosione a filo e a tuffo.  
Filter and filtering elements for microfiltra-  
tion of oils and coolant fluids. Particularly  
suitable for diesinking and wire spark  
erosion machine.

**Filtri per compressori**  
Compressor filters  
Cartucce avvitabili per la separazione  
aria-olio idonee per compressori rotativi a  
vite o a palette.  
Air/oil separator elements using the  
coalescence principle. Easily installed  
an replaced, suitable for rotary or piston  
compressors.

**Filtri per compressori**  
Compressor filters  
Elementi filtranti per la separazione aria-  
olio a cestello.  
Per compressori rotativi a vite o a palette.  
Air/oil separator basket elements. Suita-  
ble for rotary or piston compressors.
